

# MoM

**Project:** Offline Data Collection and Cleaning App

**Client:** Suma Niveditha K, Anusandhan Social Consultants LLP

**Date:** 29th March

---

## Requested Features & Suggestions

### 1. Form Enhancements

- **Spellchecker & Autocorrection** for text fields (especially helpful for short/open-ended answers)
- Support for **short answers** (open-ended questions)
- **Data cleaning** suggestions or pre-validations
- **Comment section** in forms
- **Collector observations** — separate field to log qualitative notes
- **History for the form** — track edits or submission history
- **Add PDF export option** for filled forms

### 2. Media and Input Extensions

- **Visualization** of data (charts, graphs) in dashboard
- **Image upload** support in forms
- **Audio recording** support for capturing verbal inputs

### 3. General Improvements

- Integration of **auto-correct** for both form creators and field users
- Plan and features discussion for **next week** (tentative next meeting point)
